Begins with A Gail from N N E an N E and N. where it stoped about six hours or eight. the Barometer falling untill four oclock P.M. at 28.67 or 6 3/4 ths. I never experienced the feeling such as I did to day though I have seen more violent Gails I think but the Barometer going down as it did caused me to feel shure of A Thuphoon or Herracane. several times to day I came below and knelt to him who holds the sea in the hallow of his hand and I promised that if he would preserve me and with all the souls on board that I would be A truer follower of our Lord than I ever have been that I would try with my whole Heart Mind and Body to serve him that I might be preserved through this Gail and prepair myself more fully to be fit to be received in that Heaven ly Kingdom And I now promice through the help of our Blessed Savior Jesus to try with my whole power to live aright. I we are but Humans but with Jesus help I hope to succeed

the Gail moderated as the Barometer stoped falling, and wind hawled to N W W and W S W at present and blowing A fresh Gail from there with A sea in all shapes. during the heavest of the Gail lay with Mizzen Staysail only. sent down top Galan
